

# Casa Faith & Science Series

Free presentations | All are welcome

*Faith and reason are like two wings on which the human spirit rises to the contemplation of truth  
~ Pope John Paul II*

## Wonder of Creation! | Rattlesnakes: Facts and Fiction!

Monday, March 24, 2025

6:00 to 7:30 pm

Free | All are welcome

Casa Faith Formation presentation

The Wonder of God's Creation

Ever wonder what our Catholic faith says about

science? The first part of this evenings presentation will discuss how faith and science do not conflict. Additionally, we will hear a brief history of the Church's impact on the advancement of science.

Followed by special guests:

**Desert Foothills Land Trust and Rattlesnake Solutions**

Learn more about one of our desert neighbors! Few animals spawn mythology like rattlesnakes do. Whether you're new to Arizona, just visiting, or have lived here for years you're sure to have heard misinformation about these widely misunderstood animals. Join us as we dispel the myths, and spend some time up close and personal with several splendid snakes.

## Faith and Science

Tuesday, May 20, 2025

6:30 to 8:30 pm

Free | All are welcome

This presentation from the Vatican

Observatory Foundation discusses

the Church's historical views on the interaction of Faith and Science as well as theological thoughts based on the book *Science and Faith* by John Haught.

The evening will conclude with night time sky viewing through telescopes!

*Register here!*

*For one or both events!*
